THE SENATE

NOTES that Articles 76 of the United Nation's Convention of the Law of the Sea (UNCLOS) allows Nigeria to extend its Continental Shelf of a littoral State up to a maximum distance of 350 nautical miles from the traditional 200 Nautical miles if it can prove through scientific data and arguments that the land below the sea at that distance is nautical prolongation of its own land;

NOTES also that Nigeria made a submission for an Extension of her continental shelf to the United Nations Commission on the Limits of the Continental Shelf (CLCS) under Article 76 of the UNLCLOS on 7th May, 2009.

NOTES further that the submission was aimed at claiming additional maritime territory of up to 140,000sq km for Nigeria which is potentially rich in hydrocarbons, hydrates, ferro-manganese crusts, and other natural resources; and when approved, will make a significant contribution to the development of Nigeria economically, politically and ensure security-wise after which the National Boundary Commission approved the posting of two Experts to New York and an Office opened for them as the Project Office to among other things;

(a) facilitate the enhancement of the submission;
(b) liaise with relevant United Nations bodies relating to UNCLOS on matters relating to the submission;

PRINTED BY NATIONAL ASSEMBLY PRESS, ABUJA

(c) serve as a preparatory ground for the question-and-answer sessions between the Sub-Commission examining the submission and the Nigerian Technical Team;

(d) serve as a venue for the establishment of important knowledge-sharing, as well as the venue for capacity building and support activities during the final preparation, presentation and examination processes.

AWARE that the National Boundary Commission embarked on the project in year 2000 steered by the Nigerian Technical Committee comprising officials from;

(a) Ministry of Foreign Affairs;
(b) Federal Ministry of Justice;
(c) Nigerian Institute of Oceanography and Maritime Research;
(d) Department of Petroleum Resources; and
(e) Nigerian Navy.

OBSERVES that Nigeria has explored for ways and means of enhancing the submission for easy passage and area increase but the enhancement has now become precarious based on the fact that;

(a) Nigeria's submission is based on the premise of "evidence to the contrary" because of the silt deposition in the Niger Delta;

(b) Precedents being set in the examination of other countries' submissions by the Commission on the limits of the Continental Shelf (CLCS) reveal that Nigeria needs to urgently review and, if possible, make adjustment to its submission;

(c) with the advancement or related scientific knowledge, there is a very big possibility that the review will increase Nigeria's area of claim with the use of a different foot of slope points.

(c) the Nigerian Technical Team (which has not had the opportunity to look at eight suitcase submission since 2009) needs to thoroughly familiarize itself with the submission in preparation for the question-and-answer sessions with the Sub-Commission, which will
since the establishment of the office. The two experts in the New Your Office of the project got their June 2010 foreign Service Allowances just two months ago.

NOTES also that other countries like Ghana, Argentina and China have considered it important enough to establish new and independent organs free from government bureaucracies to handle the extension of their Continental Shelves;

Accordingly resolves to:

i. *URGE* the Federal Government to source for the funding of the project outside the normal budgetary allocation (as is done in many countries)

ii. *URGE* the Federal Government in the alternative, to urgently establish an independent technical body to handle the extension of nation's Continental Shelf.

INFORMED that the Global Polio Eradication Initiative (GPEI) figures released for year 2012, listed Nigeria to have 121 new cases of Polio, while Pakistan and Afghanistan had 58 and 37 cases respectively.

CONCERNED that huge resources are being spent by Nigeria and Development Partners in the fight against Polio and that Nigeria has committed to stop the transmission of Polio Virus by December, 2013;

AWARE that the health Community and all men of conscience are devastated by the killings and aching with throbbing pains, but yet not defeated or helpless;

NOTES that messages of condolence and solidarity have been received from Partner Agencies, Traditional Rulers, Religious Institutions and Civil Society Organizations by the National Primary Health Care Development Agency (NPHCDA) and the Kano State Government;

ENCOURAGED by the commitment of all health workers and technical partners in the frontline of activities dedicated to reducing maternal and child morbidity and mortality (through vaccination), who have continued to discharge their responsibilities despite the security situation;

Accordingly resolves to:

i) *OBSERVE* a minute of silence in honour of those slain;

ii) *SEND* a condolence message to the people and Government of Borno and Kano States;

iii) *CALL* on the Senate to further affirm its support in the fight against Polio;
