THE SENATE

RECALLS its Resolution that new sources of revenue be developed for the states and Federal Government;

NOTES that Nigeria's solid minerals survey indicates the presence of over 32 strategic minerals resources in commercial quantities spread in all the states of the Federation (see list attached). For example, in Nigeria today, there are 22 coal resources spread across 13 States with proven reserve of 639 million tonnes and inferred reserve of 2,750 million tonnes. Coal used to be the source of energy requirement for the industrial sector and can generate up to 7,000 magawatts of electricity for the Nation. This is the benefit of one natural resources;

AWARE-that the Ministry of Solid Minerals is undertaking to develop one solid mineral in each Local Government Area of the Federation in order to develop cottage industries based on the Solid Mineral Resources in the Local Government Areas;

NOTES that the exploration and extraction of solid minerals resources will generate revenue to the states and provide jobs;

WORRIED-that overdependence on oil resources in the country has created great want, widespread poverty, unemployment, social decay, infrastructural distortions and general insecurity in many parts of this country;

WORRIED also that the oil reserves in Nigeria may not last more than 40 years;

FURTHER-notes that the diversification of government revenue away from oil is a key focus and that solid minerals sector has the potential to play a major role in providing substantial revenue to government and generally grow the economy;

WORRIED however, that the solid minerals sector is inadequately funded. For example, capital budgetary allocations for the 2011, 2012, and proposed for 2013 are: N2.9b. N3.2b and N1b respectively. These provisions are highly inadequate;

UNHAPPY that the Solid Minerals Sector is not adequately funded to facilitate the generation of competitive geosciences data needed to attract investors resulting in generation of revenue for government and the tremendously reducing illegal mining;

FURTHER observes that there is an absence of Solid Minerals Development Fund as provided under Nigeria Minerals and Mining Act, 2007, which stipulates special fund for developing the sector;

FURTHER **observes that the Natural Resources fund which is 1.68% of the Federation account which is supposed to fund the solid minerals sector has never been used to fund the sector. It is reported that this year over 250billion of the funds have been withdrawn and utilised elsewhere;**

AGGRIEVED **that the Solid Mineral Sector has not benefited from the Natural Resources Fund and that the Fund accrued into it is being utilised in secrecy;**

NOTES-that the 13% derivation formula as provided by the constitution has never applied to the solid minerals sector.

Accordingly resolved to:

(i). *MANDATE* **the Committee on Solid Minerals to:**

a) *EMBARK* **on holistic assessment of solid minerals development in Nigeria.**

b) *INVESTIGATE* **in collaboration with Public Accounts and National Planning, Economic Affairs and Poverty Alleviation Committees, the Natural Resources Development Fund since its inception and recommend measures to insure compliance to the objective of the Fund.**

(ii). *URGE* **the President to see to the immediate implementation of 13% derivation formula to solid mineral producing states as it applies to Oil sector.**
