**REPORT ON A BILL FOR AN ACT TO ESTABLISH THE FOOD SECURITY BILL
AND FOR OTHER MATTERS CONNECTED THEREWITH, 2016 SB 71**

1.0 INTRODUCTION

The Senate of the Federal Republic of Nigeria, at its sitting on Tuesday, 3rd May 2016 read for the second time, the Bill for an Act to Establish the Food Security Bill 2016, SB 71 and referred same to the Committee on Agriculture & Rural Development for further legislative action.

This Bill seeks to make provision for freedom from hunger, create basic right to food of accessible and affordable quality and the right of every child to basic nutrition. This right is a basic human right which protects the right of all human beings to be free from hunger, food insecurity and malnutrition.

It is important to point out that food security means far more than having sufficient food to meet human needs on a national basis. Other very important factors include access to safe drinking water, primary health care and environmental hygiene.

2.0 COMMITTEE'S CONSIDERATION OF THE BILL

2.1 METHODOLOGY

In carrying out this assignment, the Committee adopted the following methodology:

- i. Placed advertisements in electronic and print media calling for submission of memoranda and participation at the Public Hearing;
- ii. Conducted Public Hearing on Thursday 2nd June, 2016 in order to get the views and opinions of stakeholders and the general public;
- ii. Collated memoranda from the general public; and
- iii. Consulted with legal drafting experts.

The following participants were present at the Public Hearing and made contributions -

Federal Ministry of Agriculture, Central Bank of Nigeria, Agricultural Research Council of Nigeria, All Farmers Association of Nigeria, Bank of Agriculture, Bank of Industry, National Agricultural Seeds Council, National Biotechnology Development Agency. Representatives of non-governmental organisations and other stakeholders also made meaningful contributions.

From the information gathered, the Committee had a clause by clause consideration of the Bill and came up with these recommendations in the Report.

3.0 OBSERVATIONS

Mr. President and Distinguished Colleagues, after the World food crisis in 2008, developing countries started enacting laws aimed at food security. Mauritius for example enacted a food security fund to enhance local production of food by tackling all the problems militating against it. A number of developing countries that hitherto suffered from famine and hunger can now meet the nutritional needs of the most vulnerable which this Bill identifies as "food-poor persons". For instance, Central and East Asia, Latin America and the Caribbean have made huge progress in eradicating extreme hunger.

The Sustainable Development Goals (SDGs) adopted by World leaders in 2015 includes a set of 17 SDGs to end poverty, fight insecurity among others. Goal No. 2 aims to end all forms of hunger and malnutrition from 2030, with the intent that all people especially children and the more vulnerable have access to sufficient and nutritious food all year round.

In view of the above, Nigeria can rightly enact a food security law with the aim of ensuring adequate food security in line with international best practices.

4.0 OBJECTIVES

The Bill seeks to among others provide a frame work that promotes the realization of the right to freedom from hunger and access to food of acceptable quality as a fundamental human right; promote food production, self-sustenance and food security; provide a frame work for the planning, budgeting and implementation of national policies on food security and nutrition using a rights based approach and to ensure the participation of right holders and the accountability of duty holders.

It also seeks to provide for a cross sectional networking platform comprising of all relevant ministries, agencies and actors concerned with the production, storage and sale of food for ensuring access to food for all Nigerians at all times.

5.0 RECOMMENDATIONS

After a clause by clause consideration of the Bill which is made up of ten Parts consisting of 51 Clauses, two Schedules and an Explanatory Memorandum, the Committee recommends as follows:

New Insertion(s):

Clause 12 (1) (g)

Amended Clause(s):

Clause 2 (1) (i)

Retained all other Clauses in the Bill.

Mr. President and Distinguished Colleagues, food and its production are the most basic of human concerns and exist from the foundation of civilization. Despite the tremendous progress achieved by humanity, we continue to struggle to meet this basic need of mankind. This hallowed chamber will do the most needful if full support is given to the passage of this Bill at no better auspicious time than now that the Country is facing challenges of food security, production and marketing.

The Committee strongly recommends that the passage of this Bill into law will provide a legal backing and regulatory framework on food security for Nigeria.

6.0 CONCLUSION

The Committee would like to thank the Senate President, Deputy Senate President, the entire senate leadership and all distinguished colleagues for the opportunity given to us to serve in this capacity.

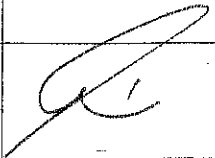

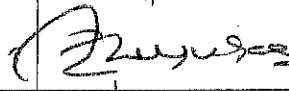

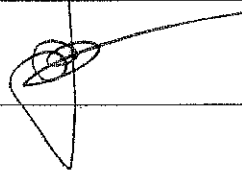

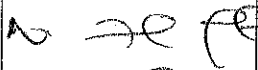

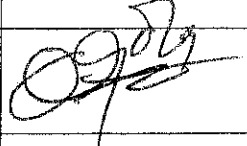

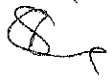

Senator (Dr.) Abdullahi Adamu CON
