9. Motions:

(a) ***A call for the Federal Government to Expedite action on the planned 2018 National Census:***

Motion made: That the Senate notes that Section 24 of the Third Schedule to the 1999 Constitution (as amended) empowers the National Population Commission to undertake the production of demographic, socio-economic and health data through the conduct of census surveys, vital statistics, (registration of births, deaths, migrations etc,) and other related activities in Nigeria;

notes also the importance of census in the life of any nation in its socio-economic and development planning. It is in the realization of these objectives that the United Nations Organization (UNO) has recommended that census be conducted every ten years;

aware that the last population census was conducted in 2006, precisely 10 years ago, hence to stress the need for conducting another exercise in tune with the United Nations Organization (UNO), should have been effected this year 2016, which has come to an end;

further aware of the complex nature of conducting a modern population census these days, requiring sophisticated arrangements involving a whole range of scientifically tested and technically efficient methods as well as a robust planning that takes several years to carry them out due to the numerous activities such as the mapping of the entire country, identifying what technology best suited, mobilizing and training thousands of enumerators, publicity campaigns and a whole lots of other activities;

concerned that in accordance with the best International practices, a well planned and executed census population should take a minimum of 2 years. It is only pertinent that subsequent population census should be carried out with an adequate timing and an objective of conducting acceptable exercise;

further concerned that inadequate funds for the preparation process towards the 2016 population census was appropriated by the National Assembly in the 2013, 2014 and 2015 appropriations, with very poor cash backing, hence part of the reason for the failure of the exercise in the year 2016;

conscious of the renewed regional and global action to reinvigorate the system and processes of civic registration as building block for establishing sustainable demographic databases that help in monitoring, development; and

further conscious that International donor agencies can offer assistance only when there is a presidential proclamation, a prerequisite commitment for the take-off of a census exercise.

Accordingly resolves to:

(*i*) call on the President of the Federal Republic of Nigeria to issue a proclamation for the holding of a population and housing census in 2018; and

(*ii*) call on the Office of the Secretary to the Government of the Federation (SGF), the National Population Commission, Ministry for Budget and Planning, and any other supervising agencies to make adequate provision in the 2017 budget as a critical prerequisite to achieving 2017/2018 population census (*Senator Suleiman O. Hunkuyi — Kaduna North*).

Debate:

Proposed Resolution(i):

Question: That the Senate do call on the President of the Federal Republic of Nigeria to issue a proclamation for the holding of a population and housing census in 2018 — *Agreed to.*
