10 Motions:

- (a) *The state of the Humanitarian Relief Effort in the North East amidst high level of funding so far:*

Motion made: That the Senate notes the growing severity in the humanitarian crisis in the North East;

observes that there have been over 73% increase in donor funding for the humanitarian response in the North East. The United Nations Office for the Coordination of Humanitarian Affairs (UNOCHA) reported that over \$426 Million have been received as at December, 2016 which is equivalent to about ₦130 Billion;

notes that although an estimated ₦36 billion worth of funding for food security has been reportedly donated towards alleviating the food security problem in the North East, however, malnutrition has reached extreme levels in parts of Borno, Adamawa and Yobe States with 4.7 million people projected to be in the integrated food security phase classification (IPC) 3 to 5.2 by June 2017;

confirms that up to 7million people in the North East are in need of humanitarian assistance. 2.5 million children are said to be malnourished, majority of them are in Adamawa, Borno and Yobe States, and 1million children are in need of access to school;

observes further that though over ₦5.7 bn has been donated to help the Region deal with health and sanitation issues, health needs remain extreme with many people already in critical health conditions and high prevalence of severe morbidity and mortality;

notes that lack of basic shelter, water, latrines and shower facilities which is a clear harbinger of communicable diseases including cholera and this exacerbates malnutrition among children under five years old, which remains a major health hazard;

aware that the United Nations, IRC, International Donor Agencies, Non-Governmental Agencies, Federal Government Agencies like PCNI, NEMA, Refugees Commission, Borno State Government have all been operating in some of the affected areas spending colossal sums of money;

observes that there is no visible synergy, coordination or engagement between the participating agencies and local authorities;

acknowledges that there is gap between what is reported to be the level of funding response and the reality on ground which continue to remain dire and grave due to lack of oversight, accountability, transparency, synergy and coordination between operating agencies; and

concerned that the way things are going, even if ₦1trillion is thrown into the mix without synergy, oversight, engagement, transparency and better coordination, nothing would improve in the condition of the displaced persons and the victims of the insurgency for whose benefit the donations have been made in the first place.

Accordingly resolves to:

mandate Committee on Special Duties to initiate the process of synergizing between United Nations, Donor Agencies, NGOs, Federal, State and Local Governments to ensure effective coordination of the humanitarian response for the benefit of the displaced persons and victims of the insurgency in the North East and report back to the Senate in two weeks (*Senator Mohammed A.
