### MOTIONS

10. **Need to Increase Awareness of Birth Registration in Nigeria:**  
**Hon. Bashiru Dawodu:**

**The House:**

*Notes* that the National Population Commission (NPC) has only managed to register the birth of 57 percent of children under the age of five, thus making it difficult for Government to plan adequately for their medical, nutritional and other needs;

*Also notes* that the Federal Government needs to know how many health centres are needed in the country and the population growth across the country to correctly estimate the medications to be imported and the tariffs;

*Concerned* about how a country without credible statistics can progress as registration of birth is the most basic requirement in planning for children;

*Worried* that when a country fails to follow through with an established pattern, the young ones are exposed to dangers that the public health and economic planning teams cannot cope with;

*Cognizant* that knowing the age distribution of a country's population makes it easier to plan, knowing how many would be of school age in what year, providing adequate classrooms and school infrastructure;

*Disturbed* that after 60 years of independence, Nigeria still does not have a reliable census figure for its children;

*Resolves to:*

- (i) Urge the Federal, State and Local Governments as well as traditional and religious leaders to join in the sensitization of the public on the importance of birth registration;
- (ii) also urge the Federal Government to conduct a study on effective penalties for parents who fail to register the birth of their children;
- (iii) mandate the Committee on Population and Information, National Orientation, Ethics and Values to ensure compliance.

**11. Need to Investigate the Alleged Disappearance of the Transit Buses Provided by the Federal Government for Transport Services within the Federal Capital Territory:**

**Hon. Ikenna Elezieanya:**

**The House:**

*Notes* that the provision of long buses in Abuja, apart from creating jobs and generating revenue, is targeted at alleviating the sufferings of the citizens as it was designed to ease the commuting challenges of civil and public servants to and from their offices to ensure effective discharge of their duties;

*Also notes* that between 2003 to 2007, 5,000 buses were provided by the Government to assist and complement the efforts of government workers in accessing their various offices within the Federal Capital Territory;

*Further notes* that between 2010 to 2014, the Federal Government, in a bid to effectively improve public service delivery in line with global best practices, provided an additional 5,000 buses for the transportation of civil servants;

*Concerned* that all the buses, amounting to 10,000 provided by the government are gradually disappearing from the roads and are not being effectively managed by the FCT administration and as such, not achieving its core objective, which is alleviating the transport challenges of the masses, especially in these trying times.

*Also concerned* that the citizens who are denied these services are daily faced with the risk of riding in commercial vehicles operated by kidnappers, armed robbers and bandits;

*Cognizant* of the need to recover the buses and make them operational to serve the core objectives for which they were provided;

*Resolves to:*

Mandate the Committee on Federal Capital Territory to investigate the alleged disappearance of transit buses provided by the Federal Government for Transport Services within the Federal Capital Territory to recover them and report back within three (3) weeks for further legislative action.

**12. Urgent Need to Replace and Secure Stolen Manhole Covers on the Roads in the Federal Capital Territory:**

**Hon. Musa Mohammed Pali:**

**The House:**

*Notes* that a manhole is an opening used as an access point for an underground public utility, allowing inspection, maintenance and system upgrades;

*Also notes* that a manhole or maintenance hole usually has a removable cover for the opening, which is large enough for a person to pass through;

*Concerned* that manhole covers in the Federal Capital Territory are being stolen by unpatriotic individuals, leaving the manholes open and posing a grave danger to unsuspecting motorists and pedestrians;

*Worried* that many people have sustained permanent injuries as a result of falling into open manholes while many vehicle tyres have been damaged as a result of running over the manholes;

*Disturb* that the activities of scavengers and other unpatriotic individual is responsible for the theft of manhole covers that are not secured or locked;

*Resolves to:*

- (i) Urge the Federal Capital Territory to immediately cover all open manholes in the Territory to prevent further endangerment to persons and properties;
- (ii) also urge the Nigeria Police Force to provide surveillance security at all times against theft of manhole covers;
- (iii) mandate the Committee on the Federal Capital Territory to ensure compliance and report back within six (6) weeks for further legislative action.

- (x) that the Nigeria Customs Service should make substantial provision for Corporate Social Responsibility so that communities where Nigeria Customs operates and people that work with Nigeria Customs Service could have a sense of belonging or take ownership of the Agency. The information required and assistance to tackle smugglers would be provided by the people easily but as it is now the NCS is seen as an outcast by these communities because they believe Customs only want to benefit from their domain at the expense of their welfare. The Nigeria Army does much more Corporate Social Responsibility for the general public and their hosts, so also, other Revenue Generating Agencies; that could be the reason for less reported acrimony and attacks against them by their host communities unlike customs
