MOTIONS

16. **Need to Unfreeze the Accounts of the National Social Investment Programmes Agency (NSIPA) for the Reactivation of all Social Investment Programmes of the Agency:**

The House:

Notes that the National Social Investment Programme Agency (NSIPA) was established pursuant to the National Social Investment Programme Agency (Establishment) Act, 2023, with the mandate of empowering unemployed persons, vulnerable widows, orphans, children, persons with disabilities, and vulnerable senior citizens, etc.;

Also notes that NSIPA oversees critical social intervention programs such as Grant for Vulnerable Groups, N-Power, the Government Enterprise and Empowerment Programme (GEEP), Conditional Cash Transfers (CCT), and the National Home-Grown School Feeding Programme (NHGSFP), etc.;

Notes that the Renewed Hope Agenda of the President Bola Ahmed Tinubu-led Government gives emphasis to the mandate of the NSIPA to cushion the effect of economic shocks on the poor and the vulnerable;

Disturbed that despite the programmes of NSIPA being vital for poverty alleviation, youth empowerment, and economic inclusivity in Nigeria, the agency's functionality has been hindered due to administrative bottlenecks, insufficient funding, and frozen accounts;

Worried that the effort of the government and the laudable programmes of NSIPA were truncated by alleged financial mismanagement by handlers of the programmes leading to the suspension of programmes and freezing of the agency's account and subsequent investigation by anti-corruption and security agencies;

Concerned that the smooth operations of the programmes and the fulfillment of the mandate of NSIPA are hindered due to the suspension (freezing) of the accounts of the agency and other administrative bottlenecks, which has remained in force even more than 3 months after the President reconstituted the new management of NSIPA;

Also concerned that the NSIPA Frozen account contradicts the President's mandate on poverty alleviation by hindering and halting social welfare programs, including conditional cash transfers, small business grants, and school feeding initiatives; undermining economic empowerment initiatives; delaying in achieving Sustainable Development Goals (SDGs); and causing erosion of public confidence and administrative paralysis in fighting poverty, among other things;

Deeply worried that as a result of the suspension of accounts of the NSIPA, the N-Power programme has been so negatively affected that 395,731 beneficiaries are owed outstanding stipends to the tune of N81, 315, 440, 000 (Eighty-One Billion, Three Hundred and Fifteen Million, Four Hundred and Forty Thousand Naira)—a fund already captured under the 2023 and 2024 amended Appropriation Acts, which will lapse by the year ending 31st December, 2024;

Believes that restoring NSIPA's account aligns with the President's vision, ensuring that poverty alleviation efforts remain effective, efficient, and impactful, and that it is essential to act swiftly to resolve this issue to maintain momentum toward the administration's poverty eradication goals;

Resolves to:

- (i) urge the President of the Federal Republic of Nigeria to mandate the Honourable Minister of Finance and the Coordinating Minister of the Economy to –
 - (a) ensure that all frozen accounts of the National Social Investment Programmes Agency (NSIPA) are unfrozen within 72 hours to enable the smooth recommencement of all the programmes of NSIPA, and
 - (b) Ensure the release of funds to NSIPA for the payment of outstanding stipends owed to 395,731 N-Power beneficiaries nationwide without further delay.
- (ii) also urge the Honourable Minister of Humanitarian Affairs and Disaster Management to ensure that all the administrative bottlenecks hindering the smooth operations of all programmes of NSIPA are immediately removed; and
- (iii) transmit this resolution to the Senate for concurrence.

17. Need to Investigate the Abuja Rehabilitation Centre and the Social Protection Programmes of the FCT:

Hon. Bashiru Dawodu:

The House:

Notes that on 22 October, 2024 the FCT Administration declared war on street begging with the aim to restore Abuja's image and enhance security;

Also notes that majority of beggars are individuals with disabilities, with other contributing factors including Almajiri, internally displaced persons, poverty, unemployment, and cultural factors;

Concerned that begging is an age long-standing social ill in Nigeria, FCT Administrations since 2003 have declared war on beggars and used law enforcement to apprehend, prosecute, or repatriate them to their own states;

Worried that the strategy has failed because it provides only a short term solution as the Beggars soon return probably in a changed location;

Aware that Federal Capital Territory has one semi-functional rehabilitation center in Bwari which is underfunded and provides suboptimal services;

Cognizant that lack of effective long-term solutions like rehabilitation, monthly survival allowance, Almajiris' feeding, and internally displaced persons resettlement will result in endemic begging;

Also cognizant that if the lack of adequate, funding and ineffective Social protection programmes persist Street begging will remain intractable;

Resolves to:

mandate the Committee on Disabilities to conduct an investigation of the Abuja Rehabilitation centre and Social Protection Programmes of the Federal Capital Territory Administration and report within four weeks for further legislative action.

**18. Rehabilitation and Furnishing of the National Museum, Port Harcourt, Rivers State:
Hon. Blessing Chigeru Amadi:**

The House:

Notes that the Federal Government, through Decree 77 of 1979, established the National Commission for Museums and Monuments (NCMM) to manage the museums across the country;

Also notes that the National Museum, Port Harcourt reflects the aspects of life in the Niger Delta, contribute to the region as an economic sphere of influence and a region that blends diverse cultural traditions;

Aware that the National Museum serves as a crucial repository of Nigeria's cultural heritage, therefore preserving artifacts that tell the nation's story;

Also aware that the National Museum, Port Harcourt is in a state of neglect and disrepair, where structural deficiencies not only endanger the safety of workers and visitors but also impede the adequate conservation, exhibition, and accessibility of the nation's cultural treasure;

Worried that the continued neglect may result in irreversible damage to the structural integrity of the facility and jeopardize Nigeria's cultural identity thereby, diminishing the collective sense of pride and belonging;

Cognizant that rehabilitating and equipping the National Museum, Port Harcourt, would boost tourism and cultural development, create opportunities for local artisans, businesses, and the region, as well as preserve the nation's cultural heritage and be an investment in the education and enlightenment of the future generation;

Resolves to:

- (i) mandate the Committees on Works, Niger Delta Ministry, and NDDC to ensure urgent renovation and procurement of modern equipment for the National Museum Complex Port Harcourt ; and
- (ii) also mandate the Committee on Appropriation to include the rehabilitation and the equipment of the Port Harcourt Museum Complex in the 2025 budget estimates.

**19. Need to Upscale the Lithium Industry and Value Chain as a Catalyst to drive Energy for Sufficient and Economic Growth:
Hon. Victor Obuzor:**

The House:

Notes that Nigeria's vast mineral resources, including metallic ore, energy, industrial, construction, and gemstones, are deposited across various geological groups, yet the mining sector remains underdeveloped. Mining was a major contributor to the economy in the 1900s, reaching a peak in the 1950s at roughly 4-5% of GDP. However, the industry declined as a result of the discovery of oil and gas, currently, mining accounts for less than 0.8% of GDP, which is much less than the average of almost 5% for the continent;

Also notes that Lithium, a reactive metal, is utilized in energy-dense rechargeable batteries, which are crucial for the global clean energy transition. These lightweight compact batteries store more energy per volume, making them ideal for portable devices and grid storage;

Concerned that there is no definitive estimate of the country's lithium reserves, despite exploration surveys commissioned by the Ministry of Solid Minerals Development under the National Integrated Mineral Exploration Project (NIMEP). Significant lithium-bearing minerals have, however, been discovered in Nasarawa, Kogi, Kwara, Ekiti, Cross River, Ogun, and Plateau States;

Worried that the country is facing a pivotal moment in its mining history due to rising global demand for renewable energy but is repeating past mistakes in the oil and gas sector by focusing solely on the upstream value chain, losing the opportunities that come with operating in the downstream segments. The price of high-quality lithium carbonate increased from \$5,180 in 2010 to \$46,000 in 2023 (with a peak of \$68,100 in 2022), making previously abandoned deposits economically viable. The IEA predicts global demand could rise 13 times by 2040;

Alarmed that despite an estimated \$700 billion worth of mining potential, lithium exploration in Nigeria remains poorly funded, with only a fraction of projects reaching full potential due to challenges in project design, construction, and production; According to the Nigerian Geological Survey Agency (NGSA), exploratory samples showed promise, with minerals containing up to 13% lithium oxide content, while the global average mine ore contains about 1-2% lithium oxide content;

Concerned that the Solid Minerals Development Fund (SMDF), a sovereign fund aimed at catalyzing private sector investments in Nigeria's mining sector, has not made any significant investments in lithium mining;

Resolves to:

- (i) urge the Ministry of Solid Minerals Development to cause the creation of the Nigerian Lithium Production Agency in line with Part II Section 4(P) of the Nigerian Minerals and Mining Act 2007 with the mandate to develop a vertically integrated lithium industry; create a roadmap for developing the infrastructure required by potential lithium mines in Nigeria and design the regulatory and legal framework governing the sector. The framework aims to establish a lithium value chain policy that links mining approvals to significant investments in midstream and downstream segments of the value chain;
- (ii) also urge the Ministry of Solid Minerals Development to request increased funding of the Nigerian Geological Survey Agency (NGSA) to enable it to carry out mineral site mapping and high-resolution airborne surveys, including radiometric and electromagnetic surveys, to accurately determine the quantity of lithium deposits in Nigeria;
- (iii) mandate the Committee on Solid Minerals Development to carry out an investigative audit of the Solid Minerals Development Fund (SMDF) account from 2015 to date.

20. Combating Incessant Banditry, Cattle Rustling and Kidnapping in Wurno/Rabah Federal Constituency of Sokoto State:

Hon. Ibrahim Almustapha Aliyu:

The House:

Notes that the security of lives and properties in Wurno/Rabah Federal Constituency, Sokoto State, is at risk due to rampant criminal activities, affecting education, business, and the states potential.

Also notes that in January 2024 armed bandits attacked Rakakar Fulani, Tumbulla, Gawon Fulani, Koliel, Arba, Kurya, and Gandhi in Rabah and Wurno Local Government Areas killing citizens, and causing the death of the wife and two children of my Legislative Aide;

Disturbed that on 10 March 2024 another bandit operation was unbridled at Kurya Village, leaving over 200 persons displaced, one dead, and another kidnapped, with several properties destroyed and numerous cattle rustled, creating huge distress to families;

Also disturbed that the criminals carried out a follow-up attack in Sabaru village on March 10 and June 18, 2024 causing property destruction, motorcycle theft, and battering of police officers.;

Recalls that in an effort to curb these dastardly attacks in Wurno/Rabah Federal Constituency, the 9th National Assembly passed a resolution to rehabilitate the Rabah-Bakura Road to curtail the frequency of these incidents, unfortunately, the road was not rehabilitated, causing continued criminal activities in the constituency;

Regrets that in September 8, 2023, a massive attack in Sokoto East, including Rabah, sparked increased criminality, violence, and displacement, converting uncompleted structures into camps.

Also regrets that over 1,200 people have been displaced in the last two weeks due to increased bandit attacks, killings, and kidnappings in Wurno/Rabah Federal Constituency, with 33 abducted in Gwaddodi, 11 in Maikujera Riji, and 8 in Tsamiya.;

Cognizant that if nothing concrete or tactical is done to curb this menace, the security situation in the constituency would deteriorate, more lives and properties would be destroyed and eventually spread to the whole State;

Resolves to:

- (i) observe a minute of silence for the repose of the deceased;
- (ii) urge the Chief of Army Staff and the Inspector General of Police to mobilise security personnel to the affected areas and establish FOB (Forward on Base) in Rara and Hutchi towns, Rabah, and Wurno Local Government Area, respectively;
- (iii) also urge the National Emergency Management Agency (NEMA) to provide relief materials to the over 5,000 displaced victims in Gwaddodi, Maikujera Riji, T'samiya, Rara, Wurno, Gandi, Lugu, Dimniso communities in the two local government areas;
- (iv) mandate the Committee on Army, Police and National Security and Intelligence and Emergency and Disaster Preparedness to ensure compliance.
