MOTIONS

17. **Rescission of the Decision of the House of Representatives on the Presentation of the Reports of the Committee on Constitution Review Pursuant to Order Nine, Rule 1(6) of the Standing orders of the House of Representatives:**

Hon. France E. Waive:

The House:

Notes that on the 3 December, 2025, the Reports from the Committee on Constitution Review were presented and laid;

Also notes that subsequent consultations with stakeholders, Honourable Members, State Houses of Assembly, and the General Public revealed the need for further review of certain aspects of the Report to ensure the recommendations adequately reflect the aspirations of Nigerians and conform with constitutional requirements;

Cognisant of the need to rescind the decision of the House on the Presentation of the Reports of the Committee on the Constitution Review of 3 December 2025;

Resolves to:

Rescind its decision on the presentation of the Reports of the Committee on the Review of the Constitution and to the Committee of the Whole for further legislative action.

18. **Need for Executive Action to Halt the Ransom Cash Economy, Strengthen Financial Intelligence Coordination, and Enforce Compliance with Anti-Money Laundering Frameworks in Nigeria:**

Hon. Ademorin Ali Kuye:

The House:

Notes that Sections 14(2)(b) and 33(1) of the Constitution of the Federal Republic of Nigeria, 1999 (as amended), vest in the Federal Government the primary responsibility to protect lives, maintain public order, and safeguard the economic sovereignty of Nigeria;

Also notes that the Central Bank of Nigeria Act, 2007 and the Banks and Other Financial Institutions Act (BOFIA), 2020 confer on the Central Bank of Nigeria regulatory and supervisory powers over monetary policy, currency management, and the integrity of the Nigerian financial system;

Aware that the Money Laundering (Prevention and Prohibition) Act, 2022 and the Terrorism (Prevention and Prohibition) Act, 2022 impose obligations on financial institutions, designated non-financial businesses, and relevant government agencies to detect, report, and disrupt illicit financial flows, including ransom payments;

Also aware that reports from the Nigeria Financial Intelligence Unit (NFIU), the National Bureau of Statistics' Crime Experience and Security Perception Survey (CESPS) 2024, and independent security research organisations indicate that Nigerians paid an estimated ₦2.23 trillion in ransom between January 2021 and June 2025, thereby sustaining kidnapping and other organised criminal activities;

Further aware that investigations by the National Counter Terrorism Centre (NCTC) under the Office of the National Security Adviser (ONSA) revealed that Point-of-Sale (POS) operators and other financial channels have been used to facilitate ransom payments and conceal financial trails, thereby frustrating recovery efforts and law enforcement investigations;

Concerned that criminal and terrorist networks continue to exploit formal and informal financial systems, including Bureau de Change operators, hawala networks, cryptocurrency platforms, livestock transactions, and trade-based money laundering schemes to launder ransom proceeds and reintegrate them into the legitimate economy;

Worried that weaknesses in financial intelligence coordination and anti-money laundering enforcement expose Nigeria to increased security threats, undermine public confidence, and heighten the risk of international sanctions and continued Financial Action Task Force (FATF) grey-listing;

Resolves to:

- (i) urge the President and Commander-in-Chief of the Armed Forces to establish a coordinated inter-agency framework for disrupting ransom financing and strengthening financial intelligence collaboration among relevant security, regulatory, and financial institutions;
- (ii) urge the Federal Government to strengthen the implementation and enforcement of regulations relating to ransom payments and terrorism financing while promoting cooperation between victims, financial institutions, and law enforcement agencies;
- (iii) urge the Federal Ministry of Finance to provide adequate funding for financial intelligence infrastructure, including advanced transaction monitoring and analytical systems;
- (iv) urge the Central Bank of Nigeria, the Nigeria Financial Intelligence Unit and other relevant regulatory authorities to:
 - (a) conduct a comprehensive audit of suspicious POS transactions in high-risk areas and take appropriate regulatory action against operators found to be involved in ransom-related activities;
 - (b) strengthen real-time monitoring and reporting mechanisms for suspicious financial transactions linked to kidnapping, banditry, terrorism, and other organised crimes;
 - (c) strengthen oversight of Bureau de Change operators and other financial intermediaries to prevent their use for money laundering and ransom payments;
- (v) also urge the Attorney-General of the Federation and relevant law enforcement agencies to investigate and prosecute individuals and entities involved in facilitating ransom transactions in accordance with existing laws;
- (vi) further urge the National Security Adviser to convene a stakeholders' summit on financial intelligence and ransom financing with a view to developing a coordinated national strategy for disrupting criminal financial networks;
- (vii) again urge security agencies to ensure that funds and assets recovered during anti-kidnapping and counter-terrorism operations are subjected to proper forensic financial investigation to identify and dismantle criminal financing networks;
- (viii) mandate the Committees on National Security and Intelligence, Banking Regulations, and Financial Crimes to monitor compliance with these resolutions and report within four (4) weeks for further legislative action.

**19. Need for a National Safe Schools Protection and Rapid Response Framework:
Hon. Olusoji Abidemi Adetunji**

The House:

Notes that Section 14(2)(b) of the Constitution of the Federal Republic of Nigeria, 1999 (as amended), provides that the security and welfare of the people shall be the primary purpose of government;

Also notes that schools across Nigeria have, over the years, been exposed to attacks, abductions, and other security threats that have disrupted learning activities, endangered students, teachers, and undermined public confidence in the education system;

Aware that the Safe Schools Initiative was launched in 2014 following the abduction of 276 schoolgirls from Government Girls Secondary School, Chibok, Borno State, with the objective of strengthening the protection of schools, supporting community-based security arrangements, improving school infrastructure, and ensuring uninterrupted access to education in vulnerable communities;

Also aware that the Federal Government subsequently launched the National Plan on Financing Safe Schools (2023-2026), with a projected investment framework valued at approximately ₦144.77 billion to improve safety and security in schools across the Federation with the involvement of the Federal Ministry of Education, security agencies, state governments, development partners, and other stakeholders;

Further aware that despite the implementation of the Safe Schools Initiative and related interventions, incidents of school attacks and mass abductions have continued to occur in various parts of the country, demonstrating the need for stronger preventive, intelligence-led, and rapid-response mechanisms;

Observes that many schools, particularly in rural and underserved communities, still lack essential security infrastructure such as perimeter fencing, surveillance systems, emergency communication tools, and coordinated response mechanisms.

Resolves to:

- (i) urge the Federal Ministry of Education to establish maximum national school security standards covering perimeter protection, access control measures, emergency preparedness plans, security audits, and community participation mechanisms for all public schools;
- (ii) Mandate the Committees on Basic Education and Services, National Security and Intelligence, Defence, Police Affairs, and Interior, to conduct a comprehensive assessment of the implementation of the Safe Schools Initiative and the National Plan on Financing Safe Schools (2023-2026), including the utilization of funds appropriated for school safety interventions and report within four (4) weeks with recommendations aimed at strengthening school security, enhancing accountability, and ensuring the effective protection of students, teachers, and educational facilities across the Federation.

**20. Need to Establish Tubers and other Agricultural Produce Storage Facility in Agyaragu Town, Obi Local Government Area of Nasarawa State:
Hon. Abubakar Sarki Dahiru:**

The House:

Notes that farmers in Agyaragu town of Obi Local Government, Nasarawa State experience post-harvest losses annually from Agricultural produce, especially yam harvest in Agyaragu;

Aware that the Tribune Newspaper, on May 19, 2019, reported that Agyaragu town is a major producer of yam and its market is one of the largest in the state where buying and selling of yam is predominant, attracting buyers across the 36 states of the nation including neighboring countries;

Also aware that storage facilities are crucial for minimizing significant post-harvest losses, it ensures year-round food security, stabilize market prices, and increase farmers income;

Concerned that the farmer's barn have been the only storage facility in Agyaragu, the bad side of this storage system is that farmers make losses after harvest, some yams get 'injured'.

Worried that according to the Food and Agriculture Organisation (FAO) of the United Nations, and the Nigerian Stored Produce Research Institute (NSPRI), Nigeria loses 50% of agricultural produce post-harvest, in fruits and vegetables due to lack of inadequate storage facilities, poor handling practices and poor transportation infrastructure.

Also worried that the only storage facility in the North Central is the storage facility located at Zaki Biam, Ukum Local Government of Benue state with a capacity to store 200,000 tubers of yam. However, the facility is far away from Agyaragu as many farm produces will perish on the road even before they are transported to the neighboring state.

Disturbed that Farmers experience post-harvest losses as one of their biggest challenges in Agyaragu, which reduces revenue for farmers, and increases food insecurity in Nigeria;

Resolves to:

- (i) urge the Federal Ministry of Agriculture and Food Security to Establish Tubers and other Agricultural Produce Storage Facility in Agyaragu Town, Obi Local Government Area of Nasarawa State and include the project in the 2027 budget estimates;
- (ii) mandate the Committees on Agriculture Production Services, Nutrition, Food Security and Legislative compliance to ensure compliance.

CONSIDERATION OF REPORT

21. A Bill for an Act to Alter the Constitution of the Federal Republic of Nigeria, 1999 (as amended) to provide for the Establishment of State Police and for Related Matters
